

QUICK OVERVIEW FOR EDUCATORS

In One Instant is an award-winning teen safe driving video program made by teens - for teens, with followup activities that can be done In-Person or Virtually. It's been implemented in over 4,000 schools nationwide. In One Instant makes the topic of distracted, reckless, and impaired driving personal and relevant. The program helps teens to stay safe behind the wheel, and influence their friends and family to do the same.

Implementing the In One Instant Teen Safe Driving Video Program at your school is simple and easy. Student Leaders will understand how to host In One Instant in the classroom, as an assembly, or online by following these steps:
